

STARTUPS FROM ACROSS ALLIANCE

Cohélio is a company specialized in gamification and employee engagement, developing innovative solutions such as gamified applications and ambassador programs to raise team awareness on key themes (CSR, innovation, workplace safety...). It combines technology and collaborative methodologies to transform internal company practices, by encouraging active participation and the sharing of ideas.

Water ECOsystem creates water where it's most needed, thanks to its energy-autonomous Atmospheric Water Generators, which transform air humidity into a vital resource for agriculture. A specialist in water innovation, the company offers sustainable solutions for irrigation, even in the most arid regions.

Verréo sells an AI-based sorting machine for wine corks and offers recycling-ready solutions.

Additionally, Verréo is developing a glass bottle with the lowest carbon footprint for wines and beers.

Start Alarm is the world's first configurator and efficiency simulator designed to help you create an effective and coherent alarm system to secure your home. Build your alarm system yourself, but not alone!
