About Venturelab

Together with successful founders, leading academic, public and industry partners, Venturelab designs and operates programs since 2004 to support the best startup talents in closing their financing rounds and to accelerate their global business development. The startups supported by Venturelab raised combined more than 15 billion Swiss francs from investors around the globe and created more than 25'000 jobs.

e-x-e-o-n

exeon is a leading Swiss cyber security company, dedicated to protecting enterprise IT/OT landscapes through AI-driven security analytics.

greenteg

greenteg is at the forefront of developing state-of-the-art technology for core body temperature monitoring. It stands as a highly reliable & scalable solution, ready for widespread adoption.

INFRAVISTA™

INFRAVISTA enables Telcos to see their network in real-time, improve efficiency and optimize their OPEX costs - a solution developed by a telecom team for telecom.

iniVation

iniVation—a SynSense Group company—is a world leader in neuromorphic vision systems, offering ultra-low response latency, low data rates, high dynamic range, and ultra-low power consumption.

MinWave

MinWave provides miniaturized microwave components and satellite communication antennas through a patented technology for subwavelength engineering.

nu glass

nu glass offers a solution for indoor wireless connectivity. Their innovative laser technology enable glass permeability to mobile phone frequencies.

Planeto

Planeto accelerates the energy transition by digitalising the design of sustainable district heating and cooling (DHC) networks in buildings and cities.

Synthara

Synthara enables seamless integration of in-memory computing (IMC) to embedded chips, delivering a 100x boost to speed and energy-efficiency through its ComputeRAM™ solution.

yesim

YeSIM offers eSIM services for global internet connectivity, allowing users to access cellular networks through a single application available on both Android and iOS devices and a website.

Join us during the MWC and 4YFN week at our booth 8.1D20 and 8.1D21.
