## Value proposal

Cuatrecasas Innova:  
A space that includes all our open innovation initiatives to (i) address the technological and legal needs of the entrepreneurial ecosystem with a global approach, and (ii) optimize the exchange of value between the various initiatives and players within the ecosystem. Cuatrecasas Innova seeks to democratize innovation.

### ◆ MORE OPPORTUNITIES

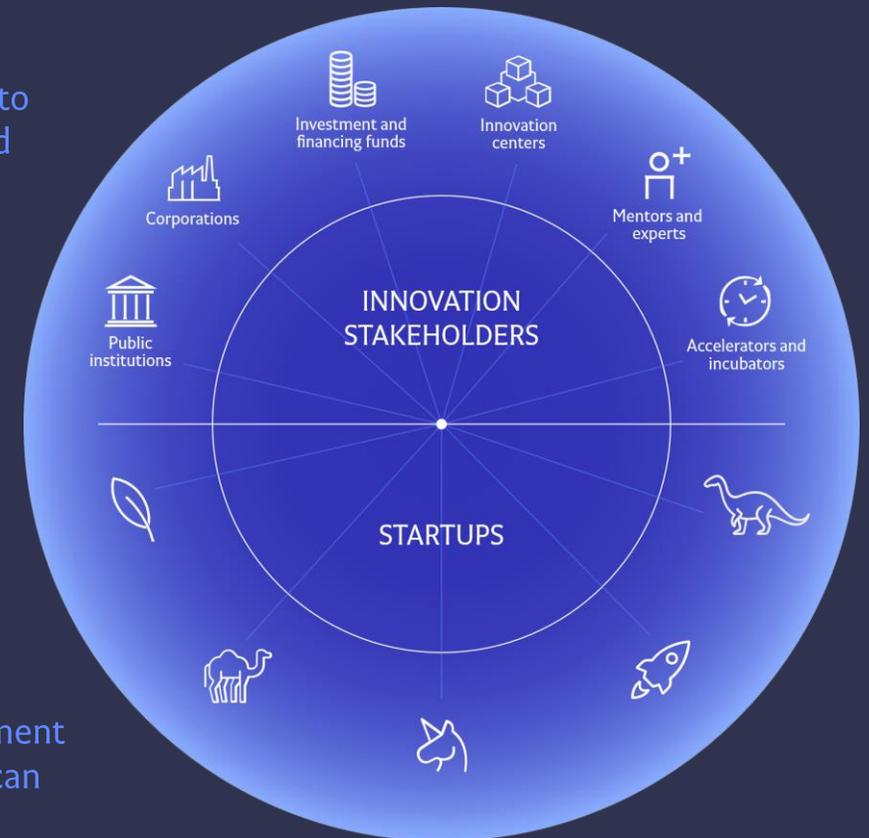

To maximize and provide access to knowledge, tools, resources and opportunities.

### ◆ MORE IMPACT

To have a greater scope: reaching all lawyers, regardless of their geographic location or professional level.

### ◆ MORE COLLABORATIONS

To create and promote an environment where players and communities can contribute and find synergies.

# Cuatrecasas Innova

## Objectives

### Acquire legal and technical knowledge

To keep at the forefront of knowledge in business models and emerging technologies, ensuring that (i) our lawyers are aware of the challenges these technologies present, and (ii) our legal services are always innovative and relevant.

### Continue improving our position in the entrepreneurial ecosystem

To establish and continue to strengthen our presence in the entrepreneurial ecosystem, actively collaborating with startups and other companies.

### Implement technological solutions that create value

To develop and implement technologies that improve the efficiency and quality of our legal services, and of our internal processes and services.

### Develop a culture of innovation

To promote a working environment that values and promotes creativity, the adoption of new ideas, and continuous training in innovation.

### Identify new business models

To explore and develop new business models that make the most of opportunities generated by emerging technologies.

### Innovate the value proposal for clients

To develop and offer innovative and personalized legal services that anticipate and respond proactively to our clients' emerging needs and challenges, ensuring a competitive advantage in the market.

# Cuatrecasas Innova Objectives

## Assist clients in their digital transformation

To keep at the forefront of knowledge in business models and emerging technologies, ensuring that (i) our lawyers are aware of the challenges these technologies present, and (ii) our legal services are always innovative and relevant.

## Attract and retain talent

To become a benchmark firm for innovative and technological talent, ensuring we attract and retain the best lawyers and professionals.

## Promote external collaboration

To establish strategic alliances with institutions, agents and other organizations to promote collaboration and the exchange of knowledge.

## Boost international expansion

To expand our open innovation initiatives internationally, seeking out collaborations and startups in different markets.

## Promote social and environmental impact

To develop and adopt technological solutions that generate commercial value and have a positive impact on society and the environment.

## Facilitate scalability and adaptability

To create a technological and organized infrastructure that enables innovations to be scaled up quickly and to adapt to market changes.

## Promote inclusion and diversity in innovation

To ensure that the open innovation initiatives include diverse voices and perspectives, promoting an inclusive culture.

# Cuatrecasas Innova Ecosystem

Innovation Pool composed of a **multidisciplinary** and **global team** of over **150 professionals** who promote and foster open innovation within the firm, including representatives from all practice areas, sectors, and offices.

We support our **startups** through various programs by providing them with legal advice, support during their growth, access to resources and knowledge, networking opportunities, visibility, and access to our ecosystem.

We collaborate with various players to comprehensively address the challenges of the entrepreneurial ecosystem by fostering **strategic alliances** and knowledge exchange, thus contributing to its growth and strength.

“

The Acelera program provides a unique value in terms of training, mentors and contracts, very differential and with a clear focus on generating added value to the startup. For us it marked a before and after.

Javier de Oca  
IOMED (2nd edition)

“

It has allowed us to share experiences with other entrepreneurs, validate everything we have done with experts and learn the next steps to take. It has helped us to have a complete vision of the legal and juridical situation, being basic in our market and for our target clients.

David Campos  
CEO MatchTrial  
(6th Edition)

“

We have been through several acceleration programs and without a doubt, this one has provided us with a lot of value. The legal support Cuatrecasas offer is very important and above all, very professional

Iván Navalón  
CEO Hydros Power  
(9th edition)

“

It's about giving the company a twist, start converting the startup we have into a company. And in terms of intellectual property, infrastructure as a company, tax, etc., there are many issues that we have begun to approach with them, and we believe that it can be a game changer for us.

Cai Felip  
CEO Union Avatars  
(7th edition)

“

A very useful aspect of the program is that it provides a joint vision of the legal and business frameworks. These are two areas that cannot be separated in technology and should not be left aside.

Francisco Hernández  
CEO Menhir (5th edition)

# Cuatrecasas Innova

## Ecosystem: COMMUNITY

We collaborate with a wide range of players such as funds, investors, corporations, associations, public authorities, and other initiatives, to comprehensively address the challenges of the entrepreneurial ecosystem. We provide the ecosystem with our expertise in cutting-edge fields of law, as well as making our Venture Capital and Fund Formation practices available to identify synergies that enable us to anticipate legal challenges and jointly validate the most disruptive solutions. In doing so, we promote **strategic alliances** and **knowledge sharing**, contributing to the growth and strength of the ecosystem.
