THE PROBLEM

Managing AI is a mess.

01

Key Sprawl

Juggling dozens of API keys across OpenAI, Anthropic, Google, AWS, and more.

02

Wasted Spend

Sending simple tasks to expensive models. No visibility into what you're actually paying.

03

Zero Visibility

No unified dashboard to compare costs, reliability, and performance across providers.

OUR SOLUTION

One API to rule them all.

Replace dozens of integrations with a single, unified gateway to 100+ LLM models. OpenAI-compatible API format means zero migration friction.

01

Connect

One API key replaces dozens. Instant access to top-tier models through one gateway.

02

Route

Auto-route requests to the most cost-effective model that meets your quality bar.

03

Save

Save up to 30% with intelligent routing and semantic caching. Never pay twice.

FEATURES

All you need in one place.

Unified API Interface

OpenAI-compatible format for seamless migration.

Multi-provider Support

Connect to multiple LLM providers through one gateway.

Performance Monitoring

Compare models' performance and cost-effectiveness.

Secure Key Management

Manage all provider keys in one secure place.

One-Click Team Sync

Invite your team and issue unique API keys instantly.

Cost-aware Analytics

Track requests, tokens, spend, and cost per 1K tokens.

Three steps to AI mastery.

01

CONNECT

Replace dozens of API keys with a single integration. Instant access to 100+ top-tier models.

02

ROUTE

Automatically route requests to the most cost-effective model meeting your quality standards.

03

SAVE

Save up to 30% with intelligent routing and semantic caching. Never pay for the same query twice.

MARKET OPPORTUNITY

The LLM market is exploding.
