

WIRELESS DEMO REGISTRATION FORM

EXHIBITORS REQUESTING LICENSED SPECTRUM MUST COMPLETE THIS FORM AND RETURN TO COMSEARCH BY September 06, 2024
(Online version is available at www.comsearch.com/mwclasvegas)

Exhibitors planning to use wireless emitters within the licensed spectrum must register their devices. This does not include devices operating on a public network, WiFi, and in the 2.4 / 5.8 GHz unlicensed bands or while using a commercial SIM card from an operator.

Please note that submission of this form does not guarantee spectrum availability.

Section 1: Contact Information

- We plan to test/demonstrate wireless emitters at MWC Las Vegas 2024.

Exhibitor Name: _____	Booth # _____	
Contact Name: _____		
Street Address: _____		
City: _____	State: _____	Zip: _____
Phone: _____	Fax: _____	Email: _____

Section 2: General Parameters

Frequency Band: 700 MHz 2.1 GHz 3.5 GHz
 2.5 GHz 3.7 GHz Other _____ (Specify)

Technology (check all that apply): LTE WiMAX UMTS 5G Other _____ (Specify)

Paired (i.e. FDD) or Unpaired (i.e. TDD) Frequency: _____

Channel Bandwidth (MHz): _____ Number of Channels: _____

Tunable Frequency Range (MHz): _____

Do you have an experimental license for this show?* _____ If yes, list file # or call sign _____

* Please note that the FCC requires that you have an experimental license to operate temporary demonstrations.

Any Personal Data collected in association with the provision of these services is processed in accordance with our [Privacy Policy](#) available on the CommScope website.

Section 3: Pricing

\$1,250 for on-site interference monitoring. Spectrum coordination is not included.

\$2,850 per band / per location*

\$950 to file an experimental license.

* Price includes spectrum coordination and on-site interference monitoring.
