

# AI Suite for the Modern Enterprise

Local Intelligence • Global Standards • Green at Heart

# Why Forward-Thinking Businesses in Qatar Choose us?

We built our AI suite on five core principles to deliver unmatched value, security, and performance for the local market.

## Arabic-First, Qatar-Born IP

Instant cultural relevance and full data sovereignty.

## Energy-Smart GreenAI Stack

30-40% lower power spend & carbon footprint.

## AWS · Azure · GCP Certified

Unlimited elastic scale + enterprise-grade security.

## Launch in Weeks

The fastest path from proposal to productivity.

## Dedicated Local Success Team

Onsite enablement, training, and continuous optimisation.

# Noor – AI for Modern Learning

Ideal for: **K-12 Schools** **Universities** **Tutoring centers**

Noor is an AI tool for education, designed for everyone in the classroom. It empowers students with structure and confidence, while giving educators more time to teach by streamlining administrative tasks.

## Noor is the better choice

### School-Aligned Content

Ships with curriculum topics ready to go.

### Powered by FANAR

The region's first Arabic LLM for language accuracy.

### 360° Analytics

Live dashboards for students & teachers.

### Data Stays in Qatar

Secure, in-country hosting.

## Institutions that switch to Noor have seen

**25%**

Jump in student test score (one term)

**40%**

Less time spent grading papers

# VisionAI – Eyes That Think

Ideal for:

Hospitality

F&B

Retail

Factories

Construction

AI Vision transforms your existing CCTV cameras into a proactive network that detects safety risks, enforces compliance, and provides critical operational insights in real-time.

- It works seamlessly with your existing CCTV and infrastructure, requiring no new hardware.
- Models are pre-trained for GCC PPE & HACCP rules, ensuring instant compliance from day one.
- Our Alert-as-a-Service sends instant WhatsApp & SMS notifications the moment an issue appears.

# AI Powered LMS – Learning on Autopilot

Ideal for:

Corporate L&D

Training Centres

Universities & Schools

Our AI-Powered LMS creates a dynamic and personalized learning ecosystem that tailors content, automates assessments, and tracks progress, ensuring your team develops the skills they need, faster.

- Effortlessly integrate any existing content or let the AI auto-create engaging micro-videos and quizzes.
- The system automatically generates relevant tests from training materials, complete with instant grading and certificates.
- Track course completion and compliance with intuitive manager dashboards and exportable, audit-ready logs.

# FlowAI – Zero Friction Workflows

Ideal for: **Procurement** **HR** **Finance** **Compliance**

FlowAI is an agentic AI platform that orchestrates and automates core workflows across departments like procurement, HR, IT, and more. Using collaborative AI agents that act autonomously, FlowAI eliminates handoffs, reduces delays, and adapts in real time.

## FlowAI is the better choice

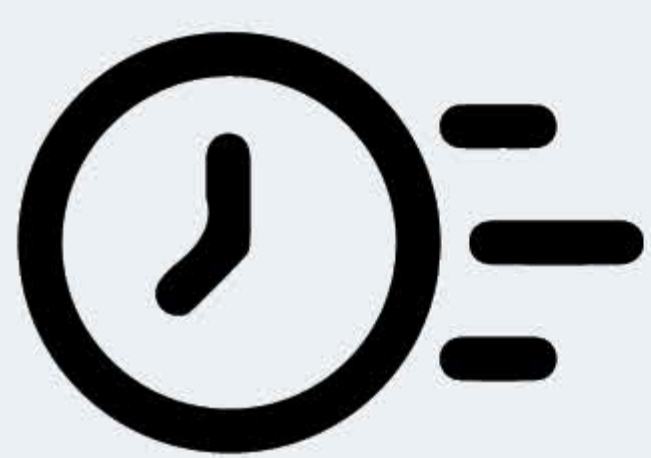

### Auto-RFP Scorer

80% faster vendor evaluation.

### Policy-Aware AI

Flags compliance issues before they escalate.

### Rapid Rollout

Configure, integrate & train in weeks.

### Autonomous Agents

Configure, integrate & train in weeks.

Organizations that switch to FlowAI have seen

**60%**

Shorter process cycle times

**90%**

Reduction in human-related errors
