- Prevent revenue loss
- Ensure customer satisfaction
- Grow customer trust
- Save time and resources

kapptivate.com

Mobile Applications

Ensure your mobile app works as expected, on real devices, in real-world conditions.

Voice Quality & IVR

Measure voice quality and validate your IVR services remotely, on real phones.

Websites

Test and monitor your web experiences (mobile and desktop) on real browsers.

USSD

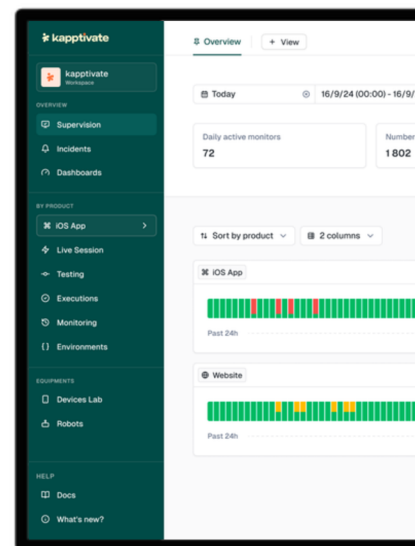

Ensure fast, reliable, and error-free USSD services for all your users.

Mobile Networks

Analyze network performance using low-level tests: ping, traceroute, and DNS lookup.

APIs

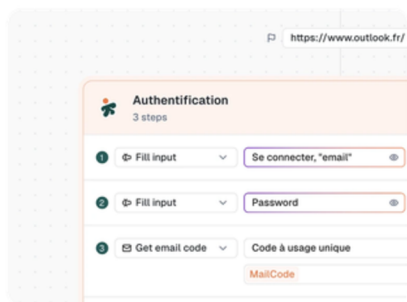

Easily monitor your APIs and your partners' APIs with advanced HTTP checks.

Over 500 million tests executed daily across 25 countries.

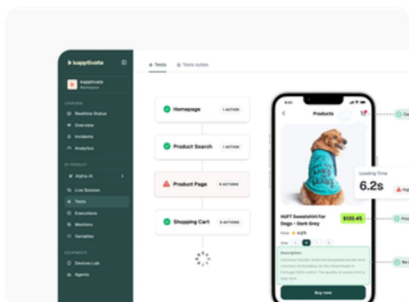

A platform as powerful as it is easy to use 🙌

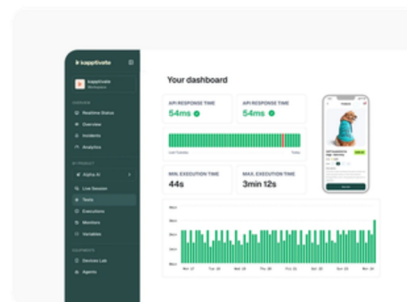

Create your tests in no-code

- 🟢 End-to-end scenarios
- 🟢 OTP support
- 🟢 Simplified scenario maintenance

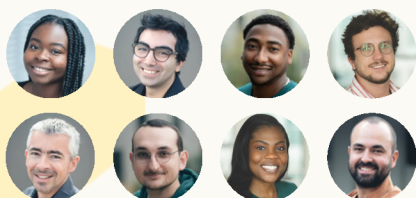

Run them in one click

- 🟢 Real user experience simulation
- 🟢 Real devices and environments
- 🟢 Execution video recordings

Monitor 24/7

- 🟢 Centralized view of all services
- 🟢 Smart, customizable alerts
- 🟢 Collaborative dashboards

💡 Want us to handle it all for you?

We'll take care of scenario creation, maintenance, personalized alerts, and custom dashboards. You just run tests when you need, or receive alerts if anything goes wrong in production.

Proven impact in Telecom, Mobile Money, and Fintech

Faster incident detection

"We detected a major incident in under 5 minutes thanks to kapptivate. And it's not the first time. Thanks again for all the support you provide in our mission."

Tahirou F.
SMC Manager / Telecom

10x faster Time-To-Market

"Thanks to kapptivate, we've automated all our regression tests. It significantly reduced execution time and improved test quality."

Aïcha B.
Senior Manager - DSSI / Telecom
