Allot Corporate Overview

Our Mission

Allot Ltd. (NASDAQ, TASE: ALLT) is a provider of leading innovative cybersecurity and network intelligence solutions for service providers and enterprises worldwide, enhancing value to their customers.

See. Control. Secure.

- Drive increased revenue and customer satisfaction through network-based security-as-a service.
- Protect local, national and enterprise networks against connected botnet and volumetric DDoS attacks.
- Understand exactly what's happening in your network through granular analytics.
- Assure optimized performance for mission critical applications, network utilization, and customer digital experience, via traffic control and shaping
- Comply with government regulations for safe Internet activity.
- Reduce OPEX and CAPEX via closed loop automation and fully cloud-based or NFV compliant deployments.

Track Record

- Allot's multi-service platforms are deployed by over 500 mobile, fixed, and cloud service providers and over 1000 enterprises from various industry verticals.
- Our industry leading network-based Security as a Service solution is already used by 20 million subscribers.

Enhanced Customer Experience

Allot solutions work with network, application, usage and security data to enhance the experience of your customers making your service smarter and more secure.

allot Secure NW

Anywhere, Any Device, Any Threat Protection

- NetworkSecure
- DNS Secure
- HomeSecure
- BusinessSecure
- EndpointSecure
- 5G NetProtect
- DDoS Secure
- IoTSecure

Allot Secure enables CSPs to offer security services to consumer and SMB mass markets, protecting end-user and IoT devices, while driving increased revenue and customer satisfaction. It also protects CSP networks and infrastructure from DDoS attacks.

allot Smart NW

Inline, Insightful, Intelligent QoE

- Smart5G
- SmartVisibility
- SmartTraffic QoE
- SmartPCC
- SmartSentinel

Allot Smart solutions give CSPs the ability to see, classify and optimize network traffic to ensure the highest end-user QoE.
Allot Smart powers traffic intelligence solutions for enterprises to protect productivity and reputation through prioritized, consistently excellent QoE.
