

The Most Comprehensive IoT Connectivity Solutions

Powered by iBASIS Global Access for Things™ and the Symphony CMP Platform

Unlock Freedom

- No lock-in to a single operator
- White label, pay-as-you-use solutions
- eSIM with Intelligent Profile Selection: Automatic and flexible
- Single-source access to 5G (FWA), LTE, LTE-M, and NB-IoT
- One Contract, One Bill, One Global Provider – Powered by iBASIS Global Access for Things and Symphony CMP Platform

Fixed Wireless Access (FWA)

- The only single-SIM solution with multi-operator backup
- USA Tier 1 FWA plan
- Fallback to two other Tier 1 operators

Travel/Consumer eSIM

- Flexible connectivity of smartphones, tablets, laptops, cellular routers, and other devices with eSIM
- Retail offers via seamless ecommerce platform integration
- Ideal for travelers, mobile workforce, and employees with easy QR code eSIM delivery
