

Enhance your Company's Global Mobility with our Roaming Solution

A web portal to access and purchase data traffic profiles for any country you need

Description

A solution suitable for all companies that need various **temporary data packages**: it facilitates the **purchase of prepaid traffic profiles for your travelling employees**.

Purchase eSIMs for **various destinations**, quickly assign them to the employees and **control data usage**.

Send the necessary installation information - QR Code, activation code - to the employees.

Advantages

Easy Management

Immediate purchase. Direct assignment of the eSIMs to employees

Control and Visibility

Data traffic usage and activation status monitoring

Flexibility and Scalability

Diversified prepaid traffic profiles, opportunity to recharge the eSIMs

Features

-  Immediate eSIMs purchasing
-  Prepaid wallet
-  Orders tracking
-  eSIM top-up through the platform
-  Data usage monitoring
-  Direct eSIM assignment to the employee via email
-  Setup instructions based on the device
