# Spotlight Presentation Remote

Advanced digital pointer with intuitive controls

## Grab attention. And keep it.

Spotlight sets a whole new standard in presentation control, combining minimalist design with powerful functionality to keep people engaged.

Go beyond traditional laser pointing: Spotlight's advanced pointer system allows to highlight or magnify areas of focus, all with pixel-perfect detail.

The selected area is clearly visible to both the meeting room audience as well as business groups via video conference.

- Intuitive slide navigation with 3 easy to find buttons for forward, back, and to control on-screen cursor
- Advanced pointer system to spotlight and magnify areas on slides
- Customisable features with Logitech Presentation software such as smart time management
- Optimized to work with Windows and MacOS
- Compatible with all leading presentation apps - PowerPoint, Keynote, PDF, Google slide, Prezi
- Dual connectivity with Bluetooth smart or USB-A receiver
- 30m (100ft) wireless operating range
- Quick charge in one minute for three hours of use
