Exhibitor Profiles

Aalyria Technologies (UK) Limited

Contact:

✉ valentine@aalyria.com

🌐 www.aalyria.com

in www.linkedin.com/company/aalyria

Company Bio:

Aalyria is creating, organizing and managing the world's most advanced networks to enable connectivity everywhere at the speed of discovery. Aalyria combines two technologies originally developed at Alphabet as part of its wireless connectivity efforts: 'Tightbeam' atmospheric laser communications technology; and 'Spacetime' a software platform for orchestrating networks across land, sea, air, space and beyond.

Stand Number:
7C30

AccelerComm Ltd

Contact:

✉ info@accelercomm.com

🌐 www.accelercomm.com

in www.linkedin.com/company/accelercomm-ltd

Company Bio:

AccelerComm delivers high-performance, error-resilient physical layer solutions for specialized 5G networks, including satellite and private. Experts in Radio Access Networks (RAN) applications, the company develops solutions with cutting-edge performance and efficiency which can be configured for a wide range of applications, optimizing aspects such as power consumption, latency, reliability, and resilience.

Stand Number:
7C22

Alchemy Network

Contact:

✉ david.spon-smith@alchemy-network.co.uk

🌐 www.alchemy-network.co.uk

in www.linkedin.com/company/alchemy-network-ltd

Company Bio:

Marketing Teams struggle to keep up with digital advertising technologies due to complexity and time constraints. Alchemy Network solves this through Europe's largest Mar/AdTech innovation program, connecting Marketing teams with relevant technologies via bespoke, brief, high-impact Zoom/Teams sessions. The program drives innovation, inspiration, and education for 500+ blue-chip companies.

Stand Number:

7B41

Amphenol

Contact:

✉ gcalton@abs-go.com

in www.linkedin.com/company/amphenol

Company Bio:

Around the Corner. Around the Globe.

Seamless business operations and daily life are increasingly dependent on interconnected networks. Amphenol, a global corporation, delivers the innovative solutions that drive this electronic revolution. Amphenol provides unparalleled support across every facet of communications, ranging from broadband to mobile networks, edge computing and more.

Stand Number:

7B51

Antevia Networks

Contact:

✉ info@antevianetworks.com

🌐 www.antevianetworks.com

✖ @AnteviaNetworks

Company Bio:

Antevia provides solutions that lower the cost and complexity of 5G private networks allowing a broader range of enterprises and use-cases to benefit from 5G wireless technology. Antevia's solutions include end-to-end Open RAN (O-RAN compliant) and vRAN software and hardware solutions including CU, DU, RU and Antevia's innovative Programmable Fronthaul technology allowing greater control of the coverage and capacity than previously possible.

Stand Number:

7A9.1

Asserson

Contact:

🌐 www.asserson.co.uk

in www.linkedin.com/company/asserson-law-offices

Company Bio:

The Asserson team is comprised of 15 partners and over 60 seasoned lawyers who have worked at the highest levels in world-class law firms and global companies as part of their in-house legal departments.

Headquartered in London, with offices in Manchester and Tel Aviv, we specialise in working with clients doing business under English law, whether in the UK or internationally, we deliver top-tier, flexible, and personalised legal services.

Our clients trust us as their go-to advisors, often integrating us as a vital part of their legal and management teams.

Stand Number:

7A9.18

AttoCore Ltd

Contact:

✉ rob.jones@attocore.com

🌐 www.attocore.com

in www.linkedin.com/company/attocore

Company Bio:

AttoCore develops ultra-mobile core network software for consumer, professional, government, and enterprise use, with live deployments across the Public Sector, Defence, Manufacturing, Energy, and Transport & Logistics sectors. Deployment can be standalone or interconnected with existing networks to extend wireless services globally.

Stand Number:
