MÁTICA AI GOVERNANCE FRAMEWORK

At Mática Partners, we provide knowledge and strategy to help companies design, implement, and use AI in an **ethical, secure, and responsible** manner.

100%
Total guarantee of **regulatory compliance**, establishing AI governance management that ensures compliance with current and future regulations.

70%
Improvement in **operational efficiency** in AI development, turning AI investments into more successful initiatives.

50%
Reduction of more than **50%** in maintenance and model support costs.

● WHY IMPLEMENT IT?

REGULATORY COMPLIANCE:
Prevent legal damages and penalties. Comply with laws and stay ahead of regulatory changes.

RISKS:
Establish a preventive risk management system adapted to current laws and the regulatory framework.

OPERATIONAL EFFICIENCY:
Improve productivity, save costs, increase agility, reduce redundancies, and minimize inefficiencies.

ECONOMIC IMPACT:
Make proactive investments that lead to more successful AI initiatives, improve your relationship with customers, and gain a competitive edge.

Mática's AI Governance Framework is based on the main industry standards, but with a model that **allows for iterative implementation**, enabling constant and incremental impact measurement.

● WHAT IS IT?

ANALYZE → **DEFINE** → **IMPLEMENT**

Assessment
We conduct an initial assessment to define the current maturity level, and you will also have the opportunity to perform a **self-assessment** using our automated evaluation kit.

### Implementation and Operationalization Methodology
We have our own framework designed to optimally implement the AI Governance Model. It covers all aspects related to the AI lifecycle, people, and risks, **to achieve ethical, secure, and responsible AI.**

Technology-Agnostic Framework
The AI Governance Framework is designed to adapt to the specific needs and platforms of each client, and can be **implemented in any type of tool.**
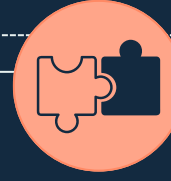

● HOW WE DO IT

AI Tools
We provide you with our professionals and AI-based tools for the automatic assessment and evaluation of the current AI maturity level.

Accelerators
- Iterative implementation of the framework in phases.
- Partially operational AI Governance Framework in 3 months.
- We use the appropriate tools and platforms for each case, maximizing resources and implementation time.

Out-of-the-box evolvable model
- Ensuring compliance with the AI Act.
- Integrated implementation using enterprise architecture toolkit (Azure, AWS, GCP).
- Incremental and iterative approach.
- Constant innovation with the best available technologies.

High-performance professionals
- Data Governance Consultants
- Legal and compliance specialists
- AI Governance Consultants
- Experts in Data Governance and AI Governance Tools
