Central Asia, Europe, Middle East

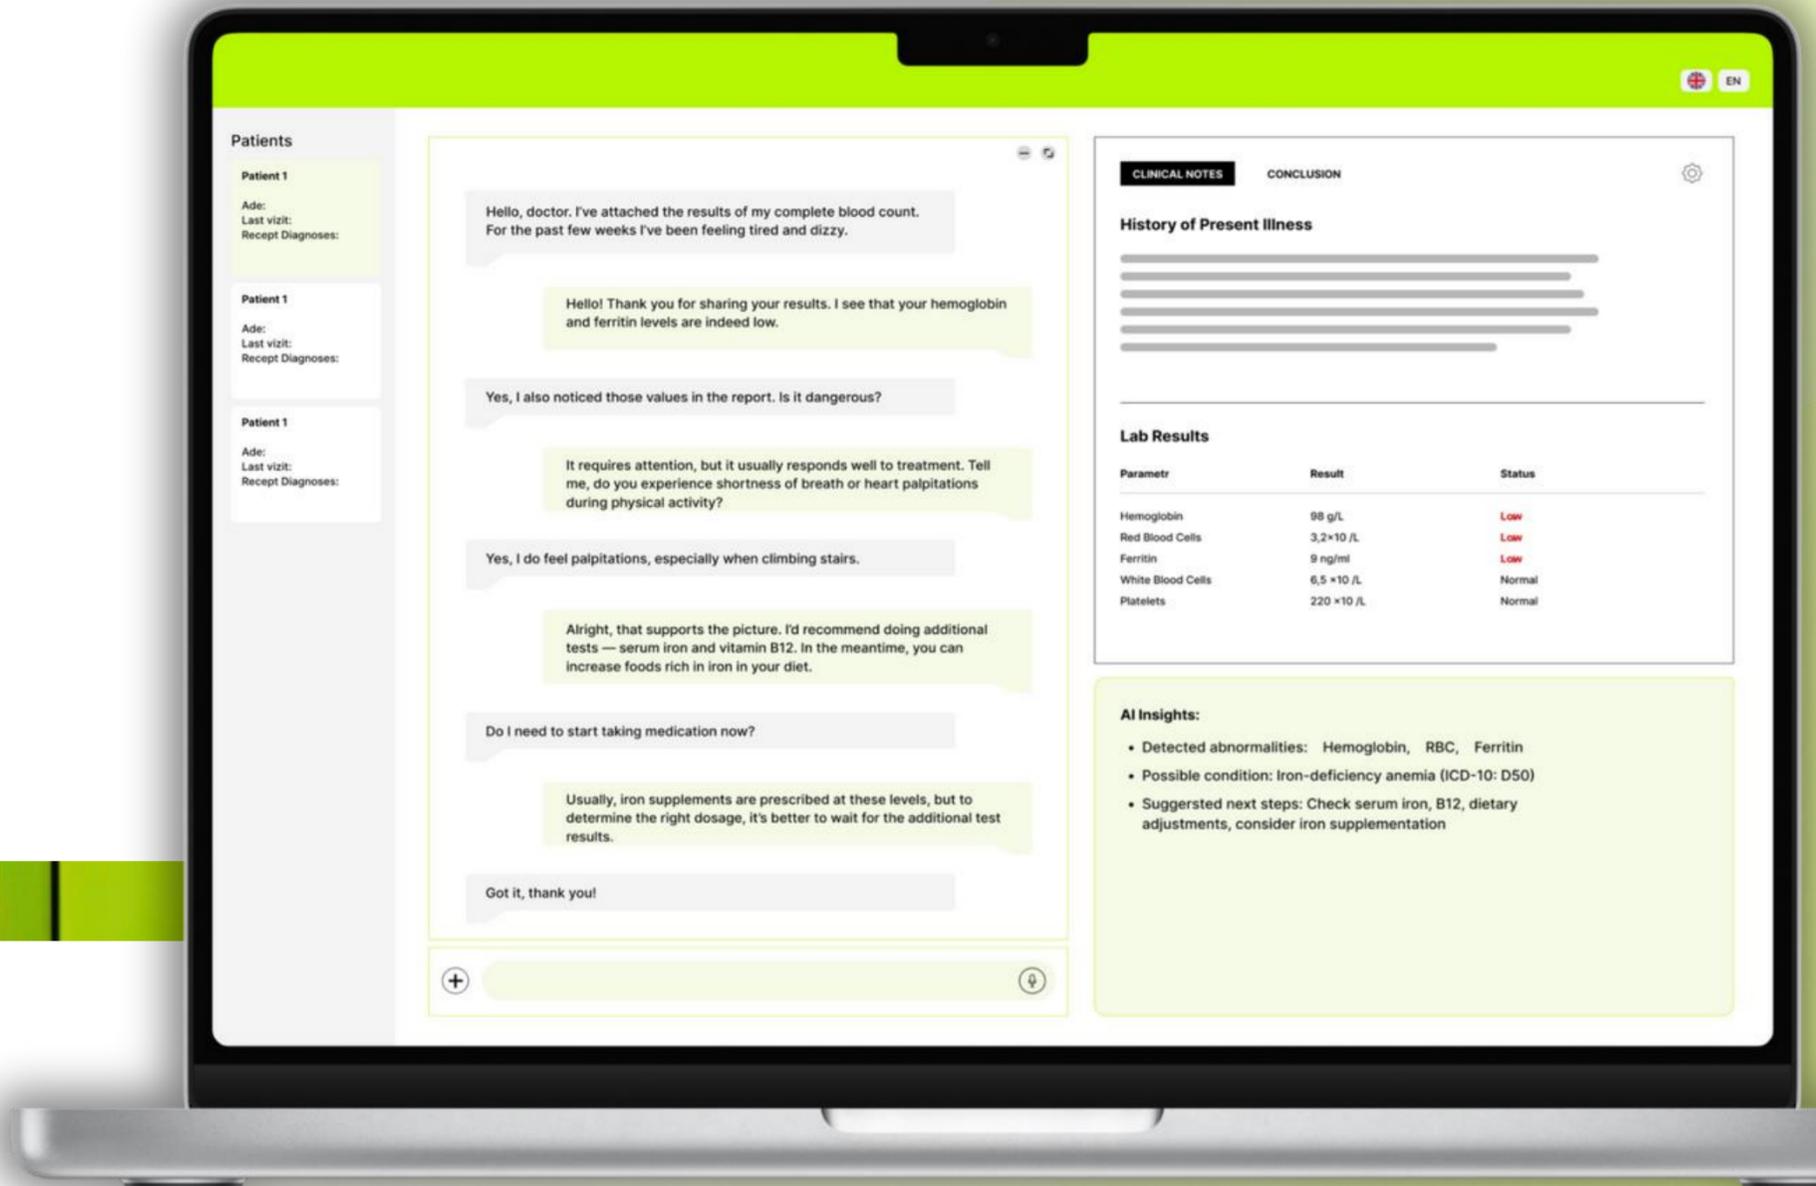

AIDA

AI Medical Assistant

AIDA automates the key stages of medical consultation through:

- ✓ **Clinical Copilot** - AI-powered clinical hints and decision support
- ✓ **Ambient Clinical Documentation** – automated anamnesis collection and real-time note generation
- ✓ **Lab Results interpretation** – structured analysis for rapid and comprehensive patient assessment
- ✓ **Clinical Documentation Integrity (CDI)** - validation of medical records and coding in line with official guidelines and protocols

AIDA saves Doctors time, ensure compliance and make consultations faster, higher quality and more accessible for Patients
